

Jacqueline Scotcher- Online Incursion Frameworks

- Year 11
- Year 12
- Artist Talk (suitable years 10-12)

Year11- Aimed towards Art as Code Unit

This incursion will be broken down into three parts/recordings.

1. Artist Talk- story of my practice, drivers behind work, motives, changes & outcome. Lots of images & connections to inquiry model/how to frame & investigate a problem. (30 min approx.)
2. Creative Practice Deep Dive- talk & small journal activities filled with images and practical steps. Discuss poetic symbols, steps to abstraction, turning sensory experience into form, journaling/methods, and experimental approaches. (30 min approx.)
3. Practical Demos- A solid session where I demonstrate how I build/layer an image. Painting & collage techniques, masking, drawing to painting. Some of these can be done of a small scale at home, but I will also demonstrate how far they can be taken. (40 min approx.)

There will be times for pause or tasks to complete, and have students document, sketch or make. I intend these to be an active engagement rather than a passive watch and connect to their own practice. *Note that this will extend the 'work' time of each recorded session by an estimate of 20 minutes each.

Materials Required: Art journal, some heavier stock paper (say watercolour, card or the like), glue stick, watercolour pencils or any water-soluble drawing items, small paint brush, some water.

Price Guide:

- A licence agreement will allow access to this online incursion content for the duration of Term Two is \$750. This can be used and watched as many times by any of your school's students or staff for this duration. Web links to content will be provided.
- With the option to add on a live 45min feedback session during the term (if school video/skype/zoom platform allows for) an extra \$200 (pending student numbers). Other feedback options can be discussed.
- The purchase of this online incursion has a rollover licence option. So, if you would like to re-use in any future school terms, access to material will be half price.

Year12- Aimed towards Completion of IA2 & Contemporary Art Context

An incursion made up of a three-part recording with option to extend into mentoring.

1. Artist talk/lecture recordings- A two-part deep dive into the inquiry process, role of experimentation and tips of how to extend ideas/materials. Examples of various contemporary artists (as well as my own) will be used to situate discussion firmly in a contemporary context. Some practical note-taking & sketching activities involved (two sessions 30 min each approx.)
2. Recording on reflection & writing about your practice. How to synthesise your inquiry & develop writing skills. (approx. 20min recording).

Materials Required: Journal and pen

Price Guide:

- A licence agreement will allow access to these recordings for the duration of Term Two is \$600. This can be used and watched as many times by any of your school's students or staff for this duration. Web links to content will be provided.
- The purchase of this online incursion has a rollover licence option. So, if you would like to re-use in any future school terms, access to material will be half price.

Incursion Extension Option:

3. Review- I review IA2 submission paperwork for students in order to inform mentoring sessions.
4. Mentor Sessions- Provide face-to-face discussion feedback via online platform or via email feedback. Have an initial 'planning' session and 'check-in' point/s during project for additional support as students finalise their senior work.

Price Guide:

- This extension option will be quoted in relation to student numbers and feedback forum/quantity. If interested we can discuss details.

Artist Talk

An artist talk suitable for a single lesson timeframe. I will unpack the story of my practice and how I investigate 'problems' through practice. There will be lots of images and integrated content regarding the inquiry model. (approx. 45min recording).

*Note that if the student group has attended one of my workshops in the before, this is not recommended.

Price Guide:

- A licence agreement will allow access to this recording for the duration of Term Two is \$350. This can be used and watched as many times by any of your school's students or staff for this duration. Web link to content will be provided.
- The purchase of this online incursion has a rollover licence option. So, if you would like to re-use in any future school terms, access to material will be half price.
